Tariff Numbering Sequence

Page Numbering: Page numbers appear in the upper right hand corner of the pages. Pages are numbered sequentially. From time to time, new pages may be added to the tariff. When a new page is added between existing pages, a decimal is added to the preceding page number. For example, a new page added between pages 5 and 6 would be numbered 5.1.

Page Revision Numbers: Revision numbers appear in the upper right hand corner of the pages. These numbers are used to determine the most recent version on file with the Commission. For example, the 4th Revised Page No. 4 cancels the 3rd Revised Page No. 4

Paragraph Numbering Sequence: There are two (2) levels of paragraph coding. Each level of coding is subservient to its next highest level, as shown by the following example:

2
2.1
2.1.1

Your change symbols should appear here if making changes at this time.

Tariff Change Symbols

C	Change in text due to a changed regulation, term or condition that does not change rates.
D	Discontinued service or deleted material.
I	Rate increase.
R	Rate reduction.
M	Material moved to or from another part of the tariff; (a footnote indicating where the material was moved to and from shall accompany the change).
N	New material, including new services, rates, terms, or conditions.
T	Change in text not related to a changed regulation, term or condition that does not change rates.

Your change symbols should appear here if making changes at this time.
